The Course

This is your chance to dedicate yourself full time to developing your football skills, showcasing your talent to professional clubs and continuing your education at a well established British Independent School. You will live the professional football academy experience in Manchester, the home of English football, having English language lessons every morning and professional football training each afternoon. IH Manchester will provide you with a carefully selected local homestay host.

Our football academy is affiliated to the FA (Football Association).

Our staff deliver all the football coaching, the education and the welfare. We do not outsource. We employ professional football coaches with experience of playing at a very high level and with UEFA A or B qualifications. Eg. Frank Sinclair – UEFA A qualified (Chelsea FC 1991-97).

Football Opportunities

We have great connections with many professional and semi professional football clubs in Manchester and the UK. This provides a great professional network for our players looking to break into professional football. It also allows our players to visit clubs and academies for “train and play” sessions whilst also hosting club guest coaching sessions on our training ground. These are excellent exposure opportunities allowing young players to show their skills to club staff who make recruitment decisions.
